EXPERIENCE

Carlson Analytics Lab

Minneapolis, USA

Analytics Consultant

Aug 2025 – Aug 2026

*Client: A Global Healthcare Firm – **Competitive Intelligence Valuation & ROI & Cost Analysis***

- Surfaced **\$2M+** in sponsor-estimated competitive intelligence value by delivering an AI scoring tool to prioritize clinically significant trials across 6 key competitors, replacing **3 months** of manual analysis.

*Client: A Leading Construction Firm – **Bid-Price Variance & Counterparty Risk Analysis***

- Identified **\$4M** in potential revenue and **264** recoverable analyst hours by extracting 3,500+ public bid records using **SQL** and performing bid-price **variance analysis** to improve bid prioritization.
- Isolated **28** key counterparties at an **80%** match rate by building competitor benchmarking models on bid overlap and win patterns, then applied **LOF** outlier detection to flag anomalous bidding behaviors for risk-adjusted bid strategy.
- Reduced bid-cost exposure by **90 bps** by running **logistic regression** across 4 bid categories to quantify competitor-specific win probabilities, translating project-scale and geographic pricing effects into go/no-go recommendations.

*Client: A Process Intelligence Firm – **Travel Budget Risk & Compliance & Variance Reporting***

- Identified **\$12.6K** in avoidable travel costs by performing **budget-variance analysis** on 6,800+ records, segmenting spend by compliance tier across 5 categories and isolating out-of-policy business-class flights as the highest-impact lever.
- Cut non-compliant bookings by **13%** and manual review effort by **9 hours weekly** by building **Power BI dashboards** with **DAX measures** to track rolling compliance rates and flag policy violations.
- Cut average task turnaround time by **20%** by managing sprint workflows in **Jira** across weekly sprints, running daily stand-ups to track task status and coordinate ownership across the analytics team.

*Client: A K-12 Transportation Management Firm – **Vendor Risk Scoring & Operational Cost Analytics***

- Reduced reporting cycle time by **2 days** by **automating** month-end operational reporting across **2.35M+** GPS records and 14,800 trips to validate route execution and flag service failures.
- Lowered vendor selection risk by **12%** by applying **Principal Component Analysis** to consolidate vendor performance metrics into composite risk scores, ranking 5 vendors and enabling risk-based vendor monitoring.

Development Bank of Singapore

Shanghai, China

Financial Analyst, Private Banking

Jul 2024 – Jul 2025

- Reduced single-sector concentration from **38% to 25%** by managing portfolio exposure across **100+** client portfolios and recommending reallocations across QDII funds, insurance, money market, and fixed income instruments.
- Contributed to **\$2.16M** in QDII fund sales by building a macro-driven **Ridge regression** model on interest rates and equity indices to forecast short-term product returns and inform allocation recommendations.
- Reduced portfolio drawdown by approximately **15%** by conducting stress testing across **100+** client portfolios, modeling adverse market scenarios to estimate **downside exposure** and support reallocation recommendations.

Guotai Junan Securities Co., Ltd.

Shanghai, China

Financial Analyst, Institutional Client Dept.

Jul 2023 – Jan 2024

- Excluded **\$45K** in high-risk financing by evaluating **credit risk** for **\$300K+** in short-term liquidity support, analyzing counterparties' **three-statement financials via Bloomberg** and recommending exposure limits.

EDUCATION

Carlson School of Management, University of Minnesota, MN
